Race Registration

Race entries for Far West Masters events can be submitted through our online registration system on SkiRaceReg.com/fw – online registration is highly encouraged!!! Entries can also be submitted by printing an event entry form from our farwestmasters.org web site and mailing/delivering directly to the race organizer with a check for each race day (instructions are provided on the entry form).

Deadlines and fees for all race events are posted on the *Season Schedule* page of our farwestmasters.org web site as well as on the online registration system SkiRaceReg.com/fw. All deadlines and policies apply equally to both online and print entries; there is no difference in fees or dates. However, we **STRONGLY** encourage all competitors to use the online registration system – it's easier and more reliable for both competitors and race organizers.

Early Registration Deadline

The early registration deadline is Sunday night prior to the start of the event. Entries received after the early registration deadline are subject to a \$5/race late fee.

The purpose of the early registration deadline is to encourage registrations to be submitted at least a week prior to the event so race organizers have a reasonable estimate of the field size for their event planning. You can still cancel your entry without fees charged any time up until the cancellation deadline, so there is no penalty for signing up early!

Entry Deadline

The entry deadline for an event is set 1-2 days prior to the first race day to allow race organizers sufficient time to complete final preparations for hosting the event. Online registration is closed at 8pm on the entry deadline date. E.g. for a typical Sat-Sun weekend event, the entry deadline is 8pm Thursday evening.

Race organizers **may** accept entries on-site between the entry deadline and when the start list is closed the night before each race, but are **not** required to do so.

Cancellation Deadline

The cancellation deadline is set at the same time as the entry deadline. You may cancel an entry at any time until the cancellation deadline and no fees will be charged.

All entries received as the entry deadline/cancellation deadline will be charged the race entry fee.

This includes DNS competitors who do not participate. No fees are charged if a race is cancelled.

Refunds **may** be granted at the discretion of the race organizer for injury or illness, but it is the **competitor's responsibility** to contact the race organizer prior to the race to notify them of your withdrawal.

Start List Closed

The start list for a race is closed at the organizer's close of business the day before the race.

You must be on the start list to compete in the race. Day-of-race entries generally cannot be accepted. **New in 2019:** Open class participation must be elected before the start list is closed.

Exceptional Conditions

The entry/cancellation deadline is normally set to allow the race organizer one working day before the start of the event to complete final preparations, such as setting up computer files for the race timing system and verifying that all competitors have a valid US masters membership to compete in the event. The entry deadline when online registration closes is *usually* Thursday evening for a weekend event. In some cases the entry deadline needs to be earlier, however, so always check the published deadline for each event that you enter.

No entry fees are charged if a race must be cancelled.

Occasionally mistakes are made in processing entry fee payments. If you believe you have been incorrectly charged a race entry fee, contact the race organizer to request a correction. If you are unsatisfied with the resolution, please bring the issue to the attention of the Far West Masters board so we can assist.

Membership and Equipment

You must have a US Alpine Masters membership for the current season or purchase a short-term US masters membership on a per-day basis to compete – this is essential for our event insurance coverage. You must provide proof of primary medical insurance coverage to obtain your US membership.

Equipment regulations are generally flexible for masters competitors, although equipment designed for the specific discipline is recommended.

******* 2019 helmet rule: FIS-certified race helmet is recommended for GS, SG, and DH *******

Helmets certified for ski racing are **REQUIRED** for all disciplines and must cover the head and ears. Soft ear protection is only permitted for helmets used in SL. Helmets with spoilers or edges that stick out, such as helmet cams, are not permitted. Protective features integral to the discipline being contested, such as chin guards on SL helmets, are permitted.

FIS-certified race helmets for GS, SG and DH must have a conformity label affixed by the manufacturer in a non-removable way, at the back of the helmet, in a position where it is not be covered by the goggle strap. The conformity label must contain the text “Conform to FIS Specifications RH 2013”. FIS certification is recommended, although not mandatory.
